Mission.

What we do to reach our vision:
To create the most powerful tools for people to understand their true Natures so they can align themselves and take the best decisions for their personal and professional lives.

Vision.

How we imagine the world could be in the future based on what we do:
A world that is more aligned.

Discover. Align. Thrive.

Our essence represents the core purpose of our brand and outlines the journey each client experiences when engaging with Multiple Natures.

Through the use of our Human Alignment Tools, individuals discover their unique natures and align them with what they do, to thrive as a results.

Pioneering.

Built upon our groundbreaking MN Framework, Multiple Natures is committed to exploring new ways to improve what we do and how we do them- from innovative approaches to management, breakthroughs in technology, important neurological discoveries, and beyond. As there are no limits on how deeply people can understand their unique nuances, equally the possibilities to improve processes and tools for human alignment are limitless.

Insightful.

Multiple Natures equips people with knowledge and tools that foster deep insight, both within themselves as well as into others, as they journey through life. This 'MN Vision' enhances powers of perception, better enabling people to truly see things concisely by embracing the principles of alignment.

Reliable.

Multiple Natures has been developed for over two decades and based on the best practises of Western science and Eastern philosophy that is over 5,000 years old. More than 150,000 individuals have benefited from our powerful human alignment tools and training programs. Our practitioners undergo intensive training and are required to continually upgrade their skills to adhere to our highest standards of quality.

That ‘Aha’ moment.

Multiple Natures reveals profound understandings about potential—things that have unquestionably affected individuals in ways they may not have yet realized. This epiphany helps align them and create an entirely new set of possibilities, evoking a deep sense of satisfaction through insight into a person’s true self whilst highlighting why certain paths and actions lead to success over others.

Inspired.

With Multiple Natures, self discovery causes illumination and intense motivation to pursue identified feelings of alignment. Enhancing foresight fuels the capacity for great decision making and achieving aims through well placed efforts geared towards your defined ability sources.

Clarity.

Discovering the unique nature of oneself leads to a clarity and a sense of both confidence, and comfort. Self discovery lets us identify areas in which our potential may be enormous whilst acknowledging areas it may be less abundant.

Human.

Multiple Natures place people at the center of our models, equipped with digital tools to enhance and amplify our live practitioners' guidance capacity. Incorporating a personal touch leads to complex discoveries and meaningful exchanges that only occur through social interaction, to enrich and enhance lives via the key process of self discovery.

Versatile.

Multiple Natures can play a role in finding the best way forward at critical moments throughout life regardless of age or stage. Applicable for finding the ideal career, exploring creative outlets, or merely seeking deep personal insights; Multiple Natures is applicable in limitless ways to encourage alignment, and allow individuals to thrive in both their professional and personal life.

Unique way of measurement.

The MN Framework provides over ten quadrillion combinations of personal attributes rendering our tool the most definitive on the planet. Powerful algorithms and the involvement of trained practitioners ensure highly accurate results.

Our tools put the spotlight directly on you.
The real you.

Multiple Intelligences.

- Gross Bodily Intelligence
- FIne Bodily Intelligence

Multiple Natures.

- Protective Nature
- Educative Nature
- Administrative Nature
- Creative Nature
- Healing Nature
- Entertaining Nature
- Providing Nature
- Entrepreneurial Nature
- Adventurous Nature

Our natures are within us all.

The logo mark is a visual representation of the nine multiple natures interacting dynamically with one another within an individual. The size of each tear shape represents the differing strengths of each nature and their symmetry depicts how they work harmoniously with each other when each nature realized, accepted, and aligned with one's actions.

The spiral effect signifies the constantly changing environment, both internally and externally, and the need to realign with one's natures when changes do occur.

The center circle within the logo mark represents the individual, while the overall circular structure expresses the wholeness and clarity that comes from being aligned with one's natures.

MULTIPLE NATURES
FEED YOUR TIGERS

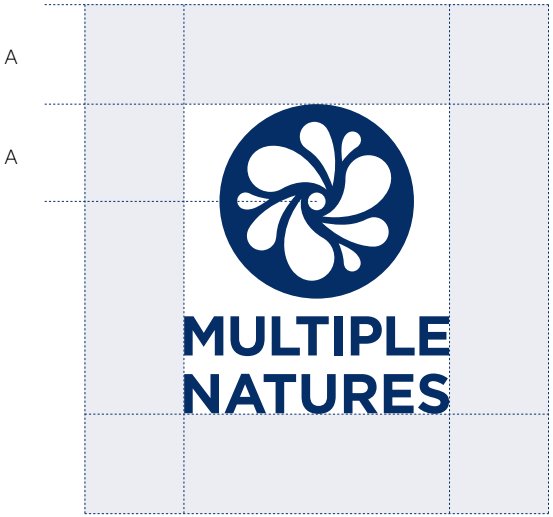
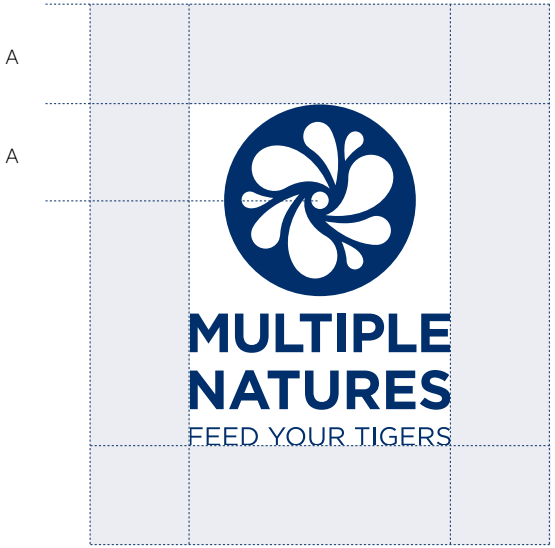
A clear space has been added around the primary logos to ensure maximum visibility, impact and consistent brand recognition. It is vital that the clear space is adhered to without any disruptance from any other elements.

The minimum clear space is equal to logo marks radius. When possible, more clear space should be added to further increase visibility and impact.

Please note that this rule of clear space applied to all primary logo variations, including the logos with slogans and product logos.

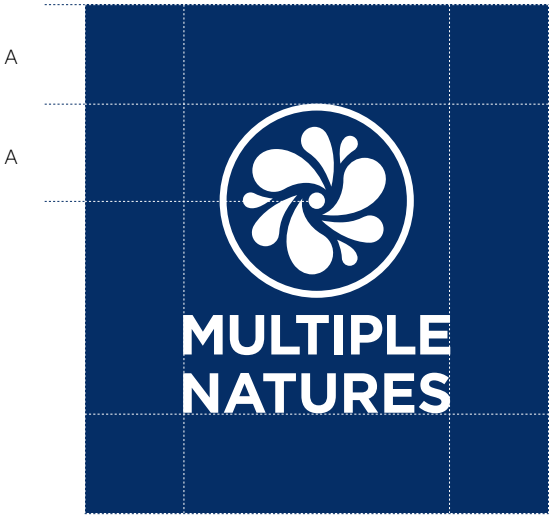


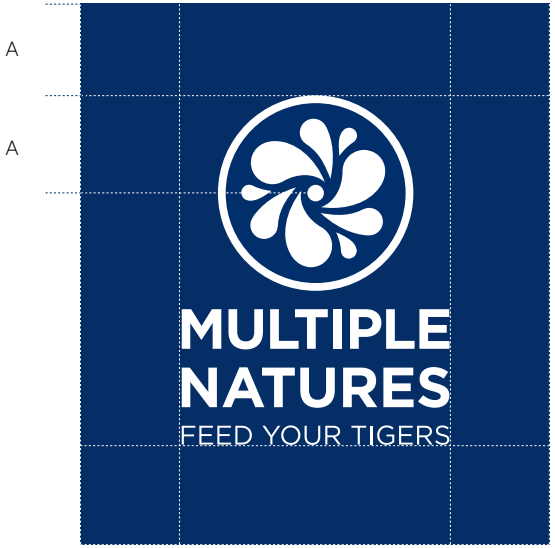


A clear space has been added around the secondary logos to ensure maximum visibility, impact and consistent brand recognition. It is vital that the clear space is adhered to without any disruptance from any other elements.

The minimum clear space of the secondary logo differs to that of the primary logo ever so slightly due to the outer white ring of the secondary logo's logo mark.

Please note that this rule of clear space applied to all secondary logo variations, including the logos with slogans and product logos.





The do's.

Our logo is our most valuable asset and must be protected and managed carefully. In order to protect the integrity of the logo, any altercations and modifications are prohibited. These rules apply to all primary logo variations.

Place the primary logo on a white background.

Only place the primary logo on a background using tint 5 of the MN blue.

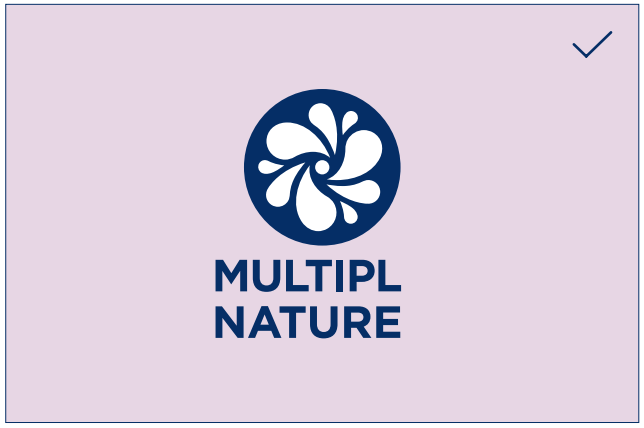
Only place the primary logo on an image only if high contrast is achieved.

The do's.

When using one of the brand color's as a background to the primary logo, it is important that only shade 6 of the applicable color is used to ensure high contrast and maximum visibility while maintaining the focus on the logo itself.

This rule applies only applying when using the MN logo (and not the product logos) and applies to every brand color expect the MN blue. See the brand color tints and shades page for reference.

Only place the primary logo on the tint 5 of the MNLife teal.



Only place the primary logo on the tint 5 of the MNTest plum.

Only place the primary logo on the tint 5 of the supporting color.

The don’ts.

To protect the integrity of the logo and brand, the logo may never be used in any of the following ways. These rules apply to all primary and product logo variations.

Do not distort any of logo logo elements

Do not change the size or order of of any logo elements

Do not tilt or rotate any logo elements

The don’ts.

To protect the integrity of the logo and brand, the primary logo variations may never be used in any of the following ways.

Do not change the color of the primary logo to white and use it on an MN blue or any other background

Do not use a logo without the white tear shapes

Do not place the logo on a non brand color background

The do's & don'ts.

Our logo is our most valuable asset and must be protected and managed carefully. The secondary logo may only be applied on an MN blue background and may not be used in any other way. The following rules apply to all secondary logo variations.

Place the secondary logo on an MN blue background.

Only place the secondary logo on an image only if high contrast is achieved.

Do not place the secondary logo on any other brand or non brand color background that is not the MN blue.

Do not place the secondary logo on any other brand color background that is not the MNCareers orange.

Do not place the secondary logo on any non brand color background.

Color overview.

The MN blue was chosen for its richness in color and sense of depth and stability. The MNLife teal, which is a combination of blue and green, was chosen due to its sense of gentleness, calmness and serenity (of blue) and strength, growth as well as high-spiritedness (of green).

The MNTest plum was chosen due to its sense of warmth, mystery and nobility. The supporting color of grey was added due to its neutral characteristics. The overall color palette creates a brand that elegant and sophisticated.

Tints for online.

Each brand color has been broken down into five tints. This has been done to allow for more creative flexibility while still maintaining a strongly recognizable and harmonious brand for most online purpose.

These five tints may only be used for the following applications: **MN webiste, digital presentations.**

MULTIPLE NATURES	**MN**LIFE	**MN**TEST	**MN**CAREERS	Accent color
1	1	1	1	1
2	2	2	2	2
3	3	3	3	3
4	4	4	4	4
5	5	5	5	5

Tints for offline & social media.

Each brand color has been broken down into two tints. This has been done to allow for more creative flexibility while still maintaining a strongly recognizable and harmonious brand for all offline.

These two tints may only be used for the following applications: **Social media, any printed items.**

MULTIPLE NATURES	**MN**LIFE	**MN**TEST	**MN**CAREERS	Accent color
3	3	3	3	3
5	5	5	5	5

MN colors.

To ensure consistent and accurate printing, it is vital that the PANTONE® of the core color is used instead of the CMYK breakdown for all offline purposes. The hex code and RGB color break down must be used for all online purposes.

The tints should be mindfully used in a consistent manner throughout the branding, both on and offline.

	MN	**PANTONE®** 2758 C

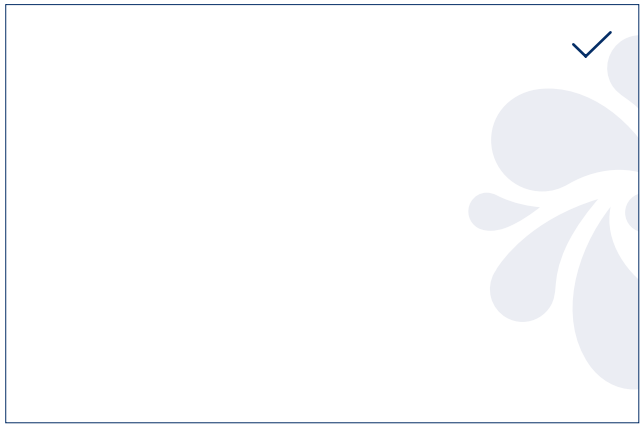
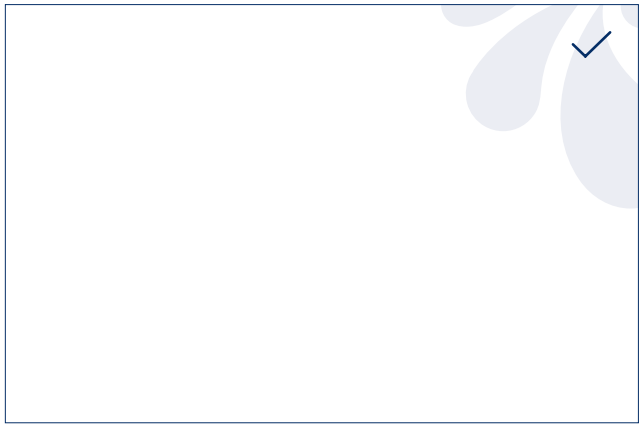
The do’s.

The inner tear shapes of the logo mark may be used as a supporting graphic to further strengthen the brand recognition across various mediums, both on and offline. This supporting graphic is visually linked to the logo and must be used with integrity.

Place the supporting graphic with 2 sides (and 5 tear shapes) cut off.



Place the supporting graphic so that it is vertically cut in half.



Place the supporting graphic so that the centre is intercepted.

The do’s.

Place the MN Blue tint 5 supporting graphic on a white background.

Place the white supporting graphic on a MN Blue background at 15% opacity.

Place the white supporting graphic on a MN Blue tint 4 background at 25% opacity.

The do’s.

Place the MNLife teal tint 5 supporting graphic on a white background.

Place the white supporting graphic on a MNLife teal background at 15% opacity.

Place the white supporting graphic on a MNLife teal tint 4 background at 25% opacity.

The do’s.

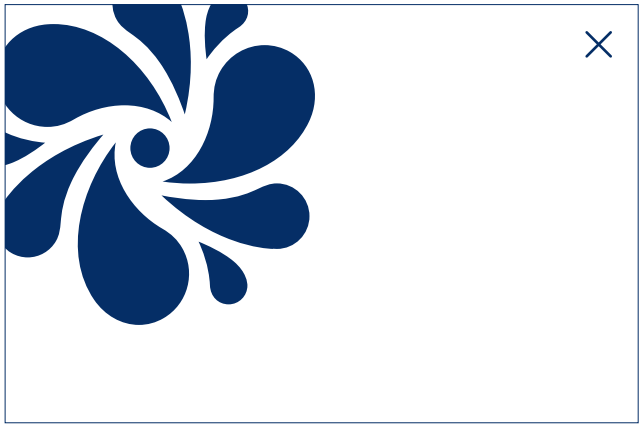
Place the MN Test plum tint 5 supporting graphic on a white background.

Place the white supporting graphic on a MN Test plum background at 15% opacity.

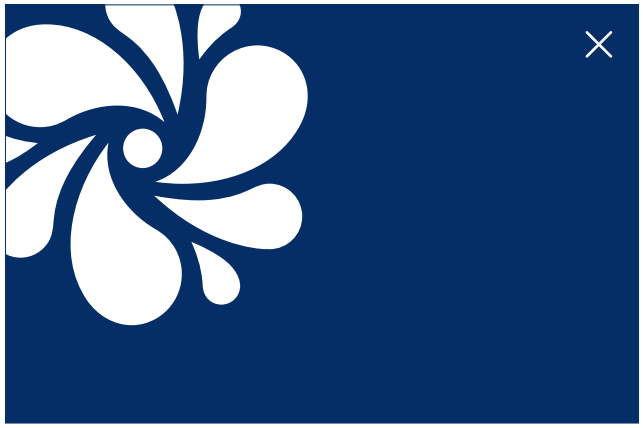
Place the white supporting graphic on a MN Test plum tint 4 background at 25% opacity.

The don’ts.

The inner tear shapes of the logo mark may be used as a supporting graphic to further strengthen the brand recognition across various mediums, both on and offline. Do not use the supporting graphic in any of the following ways.



Do not place the MN Blue supporting graphic on a white background. This rule applies to all brand colors.



Do not place the white supporting graphic on a MN Blue background. This rule applies to all brand colors.

Do not enlarge the supporting graphic so that more than 2 sides are cut off

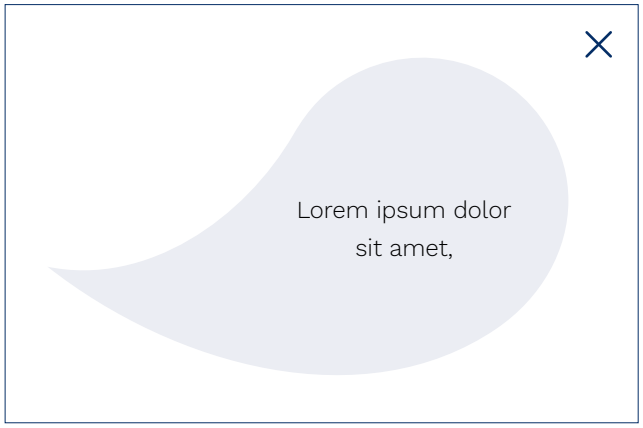
The don’ts.

Do not rotate the supporting graphic and use it at an angle that is not identical to that of the logo mark

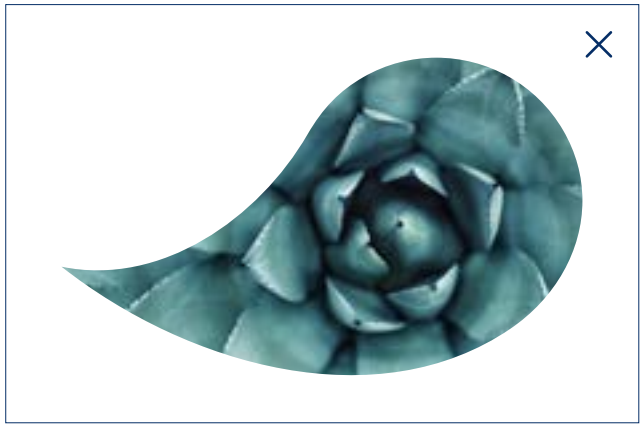
Do not expand or add to the supporting graphic in any way

Do not remove elements of the support graphic

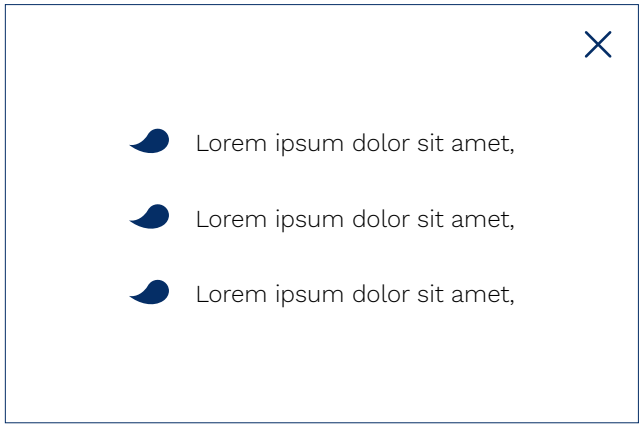
The don’ts.



Do not place any text inside or over the tear shape.



Do not place any imagery inside the tear shape.

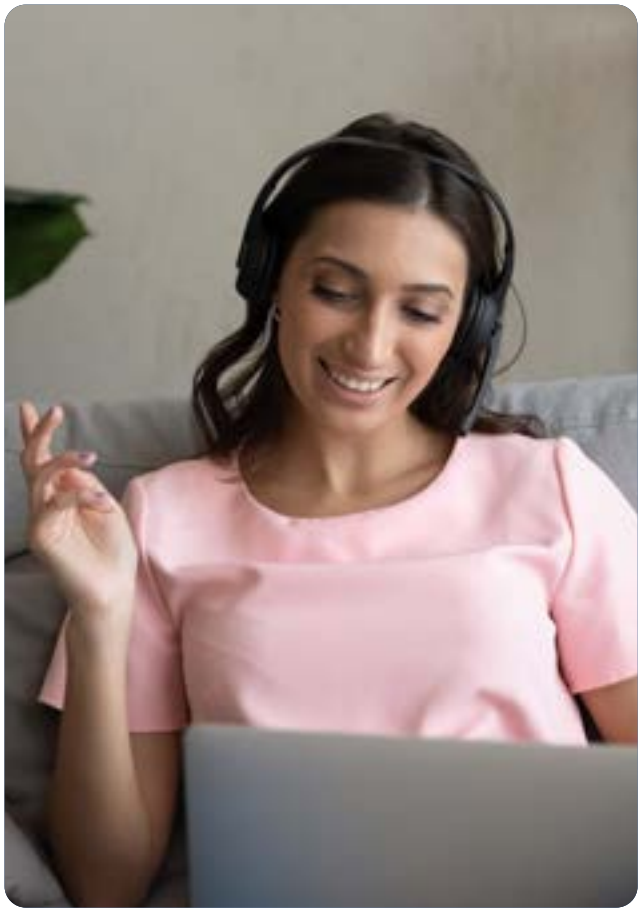


Do not use the supporting graphic as bullet points.
Use round bullet point instead.

People.

All images that include people should be carefully curated and represented the MN practitioners, their clients as well as individuals and teams particapting in the MNLife workshops. It is important that these images are a true representations of the MN brand, workshops and practitioners.

All individuals in the images must either be engaged in an activity, workshop, both on and offline, or practitioner session. It is vital that each individual demonstrates genuine emotion and looks happy and full of enjoyment while doing the task at hand.

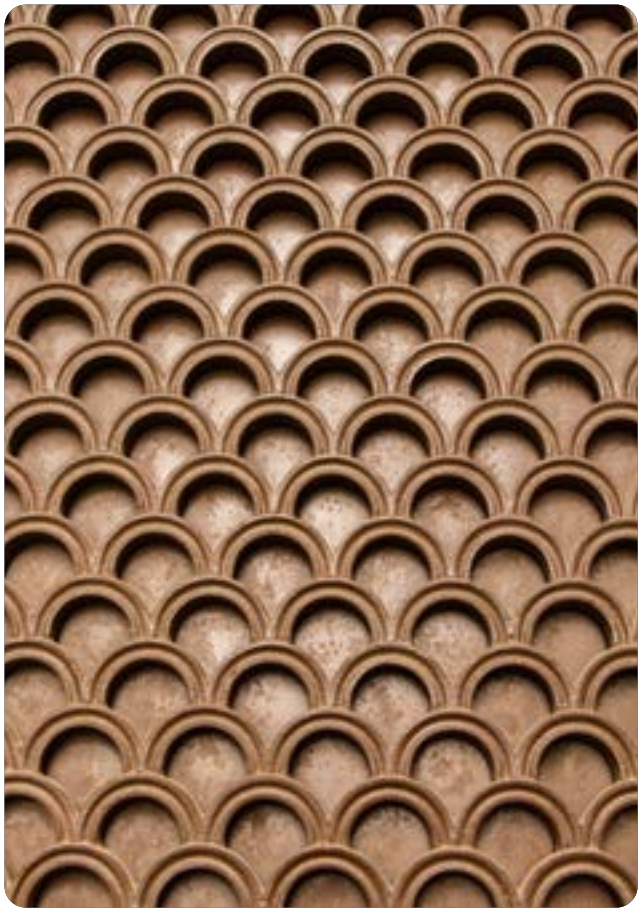


People.

Patterns.

Patterned images have been included in the brand to give rise the Eastern influences of MN. Each pattern should be geometric in shape, be made from natural resources and have a strong connection to the Eastern world.

Each image must be used in the appropriate context and chosen with the integrity of the brand in mind. The use of patterned images should be limited and used for impact.



Landscapes.

Just like patterns, landscapes have been included in the brand to rise to the Eastern influences of MN. All landscape images should originate from India and give the feeling of a new beginning or awe.

The use of landscape images should be limited and only used when referring the origins and history of MN.

Social Media guidelines

When creating social media posts, it is vital that all brand guidelines are adhered to.
Please take special note of the following:

Logos.

The minimum clear space, do's and dont's.
Using the correct logo for the applicable content, eg. using the MNLIfe logo's for MNLife posts.

Typefaces.

Use Open Sans for standard post text.
Use Merriweather for quotes or testimonials.

Brand colors.

Use the correct brand color for the content.
Only use the core brand color as well as tints 3 and 5

Supporting graphic.

All do's and dont's

Imagery.

The use of appropriate and impactful imagery that maintains the intergrity of the brand.

Logos.

Each post should have a **clear outer margin of 60px** in which all logos and text must be held. This applied to both square, portrait and landscape social media post. Both the primary and secondary logos in their various variations can be used, depending on the nature of the image or post. The logo size should be consistent throughout all logo variations and social media posts.

Please stick to the logo locations per logo variation as demonstrate below. This will ensure a consistent and professional social media presence.

Brand roll out guidelines

Standee.

When placing a logo on any form of print, it is vital that the minimum clear space is adhered to. This will ensure that the logo is also clearly visibly and strongly recognisable. The minimum clear space can be used as a guide when sizing the logo. This rule applies to all logo variations.

When designing a standee, no the text should be placed in the bottom third of standee to ensure that all text is at a readable height. A solid background, with or without with supporting graphic, or appropriate image may be placed on the bottom third of the standee.
